Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

User Stories

Use the below template to list all the user stories for the product.

User	Function Requirement	User Number	User	Acceptance	Priority	Release
Customer	Installation	1	As a user, I can install this where	I can do it by myself	High	Sprint-1
Customer	Power connection	2	As a user, I want ensure power supply for all	I will	High	Sprint-2
Customer	Safety	3	As a user, I want to ensure that the device should be in safest	I will ensure	High	Sprint-3
Customer	Battery backup	4	As a user, I want check the battery backup to	I can assure	High	Sprint-4
Customer	Internet Connection	5	As a user, I want to check the	I will ensure	High	Sprint-5
